## GCSE Dance

### **Unit 1- Written Paper 1 hour** **20%**

This will test your knowledge on the two professional works studied in lessons: 'Ghost Dances' and 'Perfect'. Make sure you have completed research on both works and use resources provided by Miss Grainger to revise.

Exam hint- Number the professional works, 1 and 2 and then answer the questions accordingly. Look at the questions first and decide which work to use and circle/ number.

### **Unit 2- Set Study** **20%**

Make sure you can identify and present your understanding of performance skills and the technical requirements of the set study. Your final performance will be recorded and then marked on DVD by the examiner.

Exam hint- watch 'Impulse' on the AQA website to help you with the choreography and how to execute it.

Go to Teaching and Learning resources and find Videos for 'Impulse':

### **Unit 3- Group Performance** **20%**

3-3 ½ minutes, (at least 2 minutes per dancer), 3-5 dancers. This piece will use Ghost Dances as its stimulus. Make sure you can compare and contrast the similarities and differences. You will be graded on your technical ability, accuracy of actions, dynamic and spatial content, as well as the communication of the choreographic intent.

Assessed LIVE: Criteria marked in half, (therefore dancers would perform twice).

### **Unit 4- Choreography** **40% of total marks**

#### **Unit 4a- 15% (20 marks)**

Solo (1-1 ½ minutes). LIVE assessment. No lyrics in music and has to be edited to end when performance/ choreography ends.

Exam tip: This unit explores how you can vary and develop at least three motifs to create interesting and original material- Be creative and experiment with RADS! Your motifs will be taken from 'Perfect' and you will complete a workbook to log your understanding of the choreographic process.

#### **Unit 4b- 25%** Solo (1 ½ minutes) or Group (3-3 ½ minutes)

Choose a stimulus- assessed LIVE. Choreography based on interpretation of stimulus.

5 marks for music- NO LYRICS!!!

Programme note required with stimulus- justify your decisions, linking actions and dynamics. Research stimulus used, providing evidence to support this.
